8. Dr Gauri Misra, Scientist Grade II National Institute of Biologicals, Noida
9. Dr Manish Bamrotiya, ART Expert, JHU
10. Dr Rohini Gupta, ART Expert

The discussion points were as follows:

As per the previous Technical Specifications (dated 30th Sep 2022) the Paediatric ARV Drug formulations can be procured in non-dispersible or dispersible form both. As per the recent experience from procurement, the suppliers are providing non-dispersible form of Paediatric formulations which makes it difficult for children (specially less than 6 years) to swallow the tablet. The same was also highlighted by ART experts during the special Paediatric TRG meeting and inputs from the ART centres. This also leads to poor adherence to ART among children and resultant lower viral load suppression.

In view of the above, Technical Specification committee deliberated and agreed on changing the specification of the paediatric regimen to dispersible and scored tablets. Same has been incorporated in the specifications in Annexure 4 and 5.
